Facts and figures

Problems encountered
by 80% of customers

problem

High prices on wholesale orders.
As a result - lack of a flexible
management system of assortment
range.

The absence of an individual
approach to partners from the
wholesale companies. As a result -
the loss of time at each checkout.

Lack of reliable local producers
in European Union territory.
As a result - expensive
imports of finished products.

Disclaimer of liability for the sold goods,
justified by low price purchase. If you
want service - go to the retail store.

solution

We are interested in mutually beneficial
cooperation and our prices are usually
lower than market average.

Individual manager for each client.
No minimum order quantity
based on EXW terms and conditions.

We produce the goods in the center
of Europe, it is closer, much faster and
cheaper than buying a similar product
in China.

We guarantee the delivery time and
quality of our product. Strictly comply
with the terms under the contract
rules and conditions.
